Projects

- **WEATHER APP USING AXIOS**

GitHub Repository: <https://github.com/amul-adhikari7/Weather-App>

The **Weather App** is a sleek web application that allows users to check the weather of any city worldwide. Built using **React.js** for dynamic UI updates, **Axios** for fetching real-time weather

data from an API, and **simple CSS** for a clean and modern design, this app delivers a seamless experience.

- **Hotel Reservation System**

GitHub Repository: <https://github.com/amul-adhikari7/StayEase.git>

StayEase is a **full-stack hotel booking system** built with the **MERN stack (MongoDB, Express.js, React.js, Node.js)**. It allows users to register, browse hotels, book rooms, make payments, and manage reservations.

- **MUSICIAN PORTFOLOIO APP**

GitHub Repository: <https://github.com/amul-adhikari7/Musician-Portfolio.git>

The **Musician Portfolio Website** is a modern and elegant platform designed to showcase a musician's work, talent, and journey. Built using **React.js** for dynamic UI updates, **Tailwind CSS** for a sleek and responsive design, and **EmailJS** for effortless contact form functionality, this website provides fans and event organizers with a seamless way to connect.
